Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with <i>Governmental Auditing Standards</i>	15

## Randy Silhan, CPA, CFE Certified Public Accountant Certified Fraud Examiner

## **INDEPENDENT AUDITOR'S REPORT**

To the Board of Directors and Executive Director of Meals on Wheels of Odessa, Inc.

## **Report on the Financial Statements**

I have audited the accompanying financial statements of Meals on Wheels of Odessa, Inc. (a nonprofit corporation), which comprise the statement of financial position as of August 31, 2020 and the related statements of activities, functional expenses, and cash flows for the year then ended and the related notes to the financial statements.

## Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### Auditor's Responsibility

My responsibility is to express an opinion on these financial statements based on my audit. I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, I express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

## Opinion

In my opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Meals on Wheels of Odessa, Inc. as of August 31, 2020, and the change in its net assets, its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

1

## **Report on Summarized Comparative Information**

I have previously audited Meal on Wheels of Odessa, Inc.'s 2019 financial statements, and my report dated May 5, 2020, expressed an unmodified opinion on those audited financial statements. In my opinion, the summarized comparative information presented herein as of and for the year ended August 31, 2019, is consistent, in all material respects, with the audited financial statements from which it has been derived.

### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, I have also issued a report dated April 7, 2021, on my consideration of the Organization's internal control over financial reporting and on my tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of my testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Organization's internal control over financial reporting and compliance.

Rundy Glum , CH. SE

Lubbock, Texas April 7, 2021

### NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### Nature of Activities

Meals on Wheels of Odessa, Inc. (the Organization) is a non-profit corporation originally organized in the State of Texas in 1977. The Organization's purpose is to provide nutritional services for the elderly, disabled, and homebound citizens within Ector County. Support is provided from state and federal grants, United Way allocations, private and corporate contributions, and special event fundraising activities.

#### **Basis of Accounting**

The accompanying financial statements have been prepared on the accrual basis of accounting consistent with generally accepted accounting principles applicable to voluntary health and welfare organizations in the United States of America.

#### Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Accordingly, actual results could differ from those estimates.

#### Income Taxes

The Organization qualifies as a tax-exempt organization under Section 501(c)(3) of the Internal Revenue Code and, therefore, has no provision for federal income taxes. In addition, the Organization has been determined by the Internal Revenue Service not to be a "private foundation" within the meaning of Section 509(a) of the Internal Revenue Code. There was no unrelated business income in 2020 or 2019.

The Organization's Forms 990, Return of Organization Exempt from Income Tax, are subject to examination by the IRS, generally for three years after they were filed. Management asserts that the Organization did not undergo any IRS examinations in 2020 or 2019 and none are in process through the date of this report.

#### Cash & Cash Equivalents

For purposes of the statement of cash flows, the Organization considers all cash in demand accounts, certificates of deposits, and highly liquid investments with an initial maturity of three months or less to be cash equivalents.

## Grants & Accounts Receivable

Grants and accounts receivable are stated at net realizable value which is the amount management expects to collect from outstanding balances. Support and revenue from grants and payors are on a cost reimbursement basis where the Organization incurs expenses for meal programs and then subsequently bills and requests reimbursements from the granting agency or insurance company based on the rate approved in their respective contracts. Management considers all receivables to be fully collectible, and accordingly, no allowance for doubtful accounts is necessary. Accounts will be charged to operations if they become uncollectible. These are remitted monthly and are generally collected within a month of the request for reimbursement. Current receivables are reported in the statement of financial position.

## NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

#### Investments

In accordance with FASB ASC 958, investments in marketable securities with readily determinable fair values and all investments in debt securities are reported at their fair values in the statement of financial position. Investments consist of marketable equity securities and money market funds. Net investment income (loss) consists of realized and unrealized gains and losses, interest, dividends, net of fees. Purchases and sales are recorded on a trade date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded as earned on the accrual basis. Investment income and gains restricted by a donor are reported as increases in net assets without donor restrictions if the restrictions are met (either by passage of time or by use) in the reporting period in which the income and gains are recognized.

#### Property and Equipment

Property and equipment of more than \$500 is recorded at cost for purchased property and fair market value at the date of acquisition for donated property. Property and equipment are depreciated using the straight-line method over the asset's estimated useful lives that range from 3 to 40 years. The cost of repairs and maintenance is charged to expense as incurred.

Carrying values of property and equipment are reviewed for impairment whenever events or circumstances indicate that the carrying value of an asset may not be recoverable from the estimated future cash flows expected to result from its use and eventual disposition. When considered impaired, an impairment loss is recognized to the extent carrying value exceeds the fair value of the asset. There were no indicators of asset impairment in 2020 or 2019.

#### Accounts Payable

Accounts payable as of August 31, 2020 consists of amounts owed to vendors totaling \$61,574 for program operating expenses.

#### Payroll Taxes

The Organization's payroll tax deposits were made in a timely manner for the year ended August 31, 2020.

#### Net Assets

Net assets, revenues, gains, and losses are classified based on the existence or absence of donor or grantorimposed restrictions. Accordingly, net assets and changes therein are classified and reported as follows:

<u>Net Assets Without Donor Restrictions</u> – Net assets available for use in general operations and not subject to donor (or certain grantor) restrictions. The governing board has designated, from net assets without donor restrictions, net assets for a benevolence fund.

<u>Net Assets with Donor Restrictions</u> – Net assets subject to donor- (or certain grantor) imposed restrictions. Some donor-imposed restrictions are temporary in nature, such as those that will be met by the passage of time or other events specified by the donor. Other donor-imposed restrictions are perpetual in nature, where the donor stipulates that resources be maintained in perpetuity. Contributions restricted by donors are reported as increases in net assets without donor restrictions if the restrictions expire (that is, when a stipulated time restriction expires, or purpose restriction is accomplished) in the reporting period in which the revenue is recognized. All other donor-restricted contributions are reported as increases in net assets with donor restrictions, depending on the nature of the restrictions.

### NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

#### Net Assets with Donor Restrictions - continued

When a restriction expires, net assets with donor restrictions are reclassified to net assets without donor restrictions and reported in the statements of activities as net assets released from restrictions.

#### Support and Revenue Recognition

Contributions are recognized when cash, securities or other assets, an unconditional promise to give (pledges), or notification of a beneficial interest is received Conditional promises to give are not recognized until the conditions on which they depend have been substantially met. Revenue is recognized when earned. Federal and state grants are recognized on a reimbursement basis where the Organization incurs expenses for grant programs and then subsequently requests reimbursement from the granting agency.

Special events revenue is comprised of an exchange element based upon the direct benefits donors receive and a contribution element for the difference. Special events revenue is recognized equal to the fair value of direct benefits to donors when the special event takes place. The contribution element of special event revenue is recognized immediately, unless there is a right of return if the special event does not take place.

Federal and state contracts and grants are conditioned upon certain performance requirements and/or the incurrence of allowable qualifying expenses. Amounts received are recognized as revenue when we have incurred expenditures in compliance with specific contract or grant provisions. Amounts received prior to incurring qualifying expenses are reported as refundable advances in the statement of financial position. No amounts have been received in advance under our federal and state contracts and grants. None of the grants or contracts involve an exchange portion. Disallowed costs due to oversight agency audits are recognized in the period the funds are repaid after the oversight agency has made its determination and issued a final correction action plan requiring repayment of such costs.

#### Donated Services & Materials

Volunteers and board members contribute significant amounts of time to program services, administration, fundraising and development activities; however, the financial statements do not reflect the value of these contributed services because they do not meet recognition criteria prescribed by generally accepted accounting principles. Contributed goods and services meeting the recognition criteria are recorded at fair value at the date of donation. No significant contributions of such goods or services were received and recognized during the years ended August 31, 2020.

#### Functional Allocation of Expenses

The costs of programs and supporting services have been summarized on a functional basis in the statement of activities. The statement of functional expenses presents the natural classification detail of expenses by function. Accordingly, certain costs have been allocated among the programs and supporting services benefited.

#### Prior Year Summarized Information

The financial statements include certain prior year summarized comparative information in total but not by net asset class. Such information does not include sufficient detail to constitute a presentation in conformity with generally accepted accounting principles. Accordingly, such information should be read in conjunction with the Organization's financial statements for the year ended August 31, 2019, from which the summarized information was derived.

## NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

#### Financial Instruments, Credit and Market Risk

Credit risk: The Organization's cash balances in financial institutions at times may exceed federally insured limits. The Organization has not experienced any losses in such accounts and believes it is not exposed to any significant credit risk on cash and cash equivalents.

Market risk: The Organization has a substantial amount of assets invested in various types of marketable securities in professionally managed mutual funds, exchange traded funds and money market type accounts. Such investments are exposed to various risks, such as fluctuations in market value and credit risk. Thus, it is at least reasonably possible that changes in the near term could materially affect investment balances and the amounts reported in the financial statements.

#### Recent Accounting Guidance

#### Adopted in current year:

Effective September1, 2019, the Organization adopted ASU No. 2014-09, "Revenue from Contracts with Customers". This ASU establishes a comprehensive revenue recognition standard for virtually all industries in U.S. GAAP, including those that previously followed industry-specific guidance.

In June 2018, The FASB issued ASU 2018-08, Not-for-Profit Entities (Topic 958): Clarifying the Scope and the Accounting Guidance for Contributions Received and Contributions Made. ASU 2018-08 clarifies the guidance for evaluating whether a transaction is reciprocal (i.e., an exchange transaction) or nonreciprocal (i.e., a contribution) and for distinguishing between conditional and unconditional contributions. The ASU also clarifies the guidance used by entities other than not-for-profits to identify and account for contributions made. The ASU has different effective dates for resource recipients and resource providers. Where the organization is the resource recipient, the ASU is applicable to contributions received for annual periods beginning after December 15, 2018, and interim periods within annual periods beginning after December 15, 2019 and interim periods within annual periods beginning after December 15, 2019 and interim periods within annual periods beginning after December 15, 2019. The adoption of this update had no significant impact on the Organization.

In August 2018, the FASB issued accounting standard update (ASU 2018-13), which removes and modifies several disclosure requirements on fair value measurements Topic 820. The following disclosure requirements were removed from Topic 820: 1) the amount of and reasons for transfers between Level 1 and Level 2 of the fair value hierarchy. 2) the policy for timing of transfers between levels. 3) the valuation processes for Level 3 fair value measurements. 4) for nonpublic entities, the changes in unrealized gains and losses for the period included in earnings for recurring Level 3 fair value measurements held at the end of the reporting period. The amendments in this Update are effective for all entities for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2019. As permitted, the Organization elected to early adopt this update and has implemented for 2020 and applied to all periods presented.

## NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

#### Future updates

In February 2016, the FASB issued an accounting standard update (ASU 2016-02), intended to improve financial reporting about leasing transactions. The ASU affects all companies and other organizations that lease assets such as real estate and equipment. The ASU will require organizations that lease assets—referred to as "lessees"—to recognize on the balance sheet the assets and liabilities for the rights and obligations created by those leases. The amendments in this Update are effective for fiscal years beginning after December 15, 2021, and interim periods within fiscal years beginning after December 15, 2022. The Organization is currently evaluating the impact of the adoption of this update but does not expect a material impact on their financial statements.

#### COVID19

The COVID-19 pandemic, whose effects first became known in January 2020, has and is having a broad and negative impact on nonprofits, businesses, and financial markets around the world. The United States and global markets experienced significant declines in value resulting from uncertainty caused by the pandemic. The Organization closely monitoring its liquidity and actively works to minimize the impact of these declines and fluctuations. The full extent of the impact of COVID-19 on the Organization's operational and financial performance will depend on certain developments, including the duration and spread of the outbreak and its impacts on all persons associated with the Organization, all of which at present, cannot be determined for the future. Accordingly, the extent to which COVID-19 may impact the Organization's financial position and changes in net assets and cash flows is uncertain and the accompanying financial statements include no adjustments relating to the effects of this pandemic. The following summarizes areas of impact on the Organization:

Increase in demand for services: Client requests for meals of 30% and staff time delivering meals of 20%.

Staff: No positions were eliminated specifically due to the pandemic.

Fundraising activities: Annual Mudbug was canceled in 2020 and 2021. Other fundraising events are being planned by the Organization for later in 2021.

COVID funding: Federal governmental grants totaling \$204,000 was received for fiscal year 2020-21 passed through the City of Odessa.

Investments have largely recovered in value and are consistent with market conditions.

PPP Loan: The Organization applied for and received \$52,700 in proceeds under the Paycheck Protection Program in May 2020. The loan was officially forgiven December 10, 2020.

#### Subsequent Events

Management has evaluated subsequent events through April 7, 2021, the date with which the financial statements were available to be issued. Other than the subsequent events described in the COVID19 disclosure above, no other significant subsequent events have occurred that would require disclosure in the notes or recognition in the financial statements.

## NOTE 2: LIQUIDITY AND AVAILABILITY

Financial assets available for general expenditure, that is, without donor or other restrictions limiting their use, within one year of the balance sheet date, comprise the following:

Cash and cash equivalents without donor restrictions	\$1,539,383
Grants receivable	52,400
Investments	<u>795,100</u>
	<u>\$2,386,883</u>

The board's intent is to maintain investments with a long-term strategy; however, they may be liquidated if deemed necessary. The board designated a benevolence fund of \$110,182 from net assets without donor restriction to for the purposes of client assistance and needs to be used at the discretion of executive management and the board.

As part of the liquidity management plan, cash exceeding daily requirements may be invested in short-term investments, CDs, and money market funds. At their discretion, the Board may contribute a portion of any operating surplus, to the board designated benevolence fund.

## NOTE 3: FAIR VALUE MEASUREMENTS

The fair value measurement accounting literature (FASB ASC 820) establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs are unobservable and have the lowest priority. The Organization uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. Level 1 or Level 2 inputs generally provide the most reliable evidence of fair value. Level 3 inputs would only be used when Level 1 or Level 2 inputs are unavailable.

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Organization has the ability to access. Mutual funds and money market funds are valued at quoted market prices, which represent the NAV of shares owned at year end, which are traded in an active market.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

### **NOTE 3: FAIR VALUE MEASUREMENTS - continued**

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investment from one fair value level to another. In such instances, the transfer is reported at the end of the reporting period. Management evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. There were no transfers between levels in 2020.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while management believes its valuation methodologies are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value of assets measured on a recurring basis are as follows as of August 31:

<u>August 31, 2020</u>	Fair Value	<u>(Level 1)</u>
Mutual funds	\$ 730,811	\$ 730,811
Exchange traded funds	33,357	33,357
Money market and cash alternatives	30,932	30,932
	\$ 795,100	\$ 795,100
<u>August 31, 2019</u>	Fair Value	<u>(Level 1)</u>
Mutual funds	\$ 509,626	\$ 509,626
Exchange traded funds	28,819	28,819

	1,102,482
Accumulated Depreciation	 (503,338)
Net Property & Equipment	\$ 599,144

Depreciation expense totaled \$40,809 in 2020.

## NOTE 5: PAYCHECK PROTECTION PROGRAM LOAN

In May 2020, the Organization received loan proceeds in the amount of \$52,700 under the Paycheck Protection Program ("PPP"). Established as part of the Coronavirus Aid, Relief and Economic Security Act ("CARES Act"), the PPP provides for loans to qualifying businesses and organizations up to 2.5 times the business's average monthly payroll expenses. PPP loans and accrued interest are forgivable after a "covered period" (eight or 24 weeks) as long as the borrower maintains payroll levels and uses the loan proceeds for eligible purposes, including payroll, benefits, rent, and utilities. The forgiveness amount will be reduced if the borrower terminates employees or reduces salaries during the covered period. Any unforgiven portion of a PPP loan is payable over two years at an interest rate of 1%, with a deferral of payments for 6 months after then end of the covered period. Loan terms are to repay the principal balance of \$52,700, plus interest accrued at 1% per annum in monthly payments beginning October 19, 2020. Payments will be required through the maturity date of May 5, 2022. The Organization used loan proceeds for purposes consistent with the program and applied for forgiveness in October 2020. The SBA officially notified the Organization that the loan was forgiven in full on December 10, 2020, at which time the Organization recognized the debt extinguishment and loan forgiveness income in their statement of activities. Accordingly, the Organization recorded a note payable of \$52,700 as of August 31, 2020. No forgiveness income has been recognized for the year ended August 31, 2020 as the loan was not officially forgiven until subsequent to year-end.

## **NOTE 6: BOARD DESIGNATED RESTRICTIONS**

The Board of Directors designated a portion of the net assets without donor restrictions net assets to a benevolence fund that is invested in marketable securities with professionally managed advisors. The purpose of this fund is to assist clients of the organization with meals and other items at the board's discretion. The balance totaled \$110,182 as of August 31, 2020.

## NOTE 7: COMMITMENTS AND CONTINGENCIES

The Organization participates in government funded programs. In connection with contracts under these programs, the Organization is required to comply with specific terms and agreements, as well as applicable federal and state laws and regulations. Such compliance is subject to review and audit by the grantors and their representatives. In the opinion of management, the Organization has complied with all requirements. Although the Organization does not anticipate any such disallowances, since such programs are subject to future audit or review, the possibility of disallowed expenditures exists.

## **NOTE 8: RELATED PARTY TRANSACTIONS**

The Organization may periodically conduct ordinary business with volunteers and board members. Management asserts these transactions were made on terms equal to those in any arms-length transaction.

#### **NOTE 9: OPERATING LEASE**

In November 2017, the Organization executed a 36-month non-cancelable operating lease for a new copier. Annual rental expense under this lease totaled \$1,601 in 2020. Future minimum lease payments under this lease are as follows for the fiscal year ending August 31: 2021: \$1,158

## INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the Board of Directors of Meals on Wheels of Odessa, Inc.

I have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Meals on Wheels of Odessa, Inc. (the Organization), which comprise the statement of financial position as of August 31, 2020, and the related statements of activities, functional expenses, and cash flows for the year then ended, and the related notes to the financial statements, and have issued my report thereon dated April 7, 2021.

## **Internal Control Over Financial Reporting**

In planning and performing my audit of the financial statements, I considered the Organization's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing my opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Organization's internal control. Accordingly, I do not express an opinion on the effectiveness of the Organization's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

My consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during my audit I did not identify any deficiencies in internal control that I consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the Organization's financial statements are free from material misstatement, I performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, I do not express such an opinion. The results of my tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

## **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Organization's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the organization's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
